About Gas Buddy BD

Who we are & what we deliver

We are a group of engineers who want to provide good quality and affordable gas systems in Bangladesh. Our experience lets us apply current technology to varied needs, and we have completed some of the most difficult gas system installations in the country. Cost savings, high safety, quality and efficiency are our priorities.

We are your one-stop shop for everything related to LPG and SNG gas systems - from design and installation through to maintenance. Our understanding of the market keeps us offering leading solutions.

Our Services

■ Reticulation System

We design your entire GAS system.

■ Installation & Maintenance

Tensed? We're here for you.

■ Industrial Gas System

We do it also for industries.

■ Domestic Gas System

Domestics or else, we do all.

■ Gas Related Products

All kinds of GAS related products.

■ Consulting & Support

Mr. Ansan Habib
Chief Executive Officer, Gas Buddy BD

Our Products & Services

Complete gas solutions, supplied & installed by our engineers

Our Most Demanded LPG Vaporizer

Explosion-proof electric vaporizer for continuous industrial LPG draw-off.

Price on request

Our Another LPG Vaporizer

Compact vaporizer unit with integrated pressure control and safety cut-off.

Price on request

Super Premium LPG Vaporizer

High-capacity vaporizer with control panel for large factory installations.

Price on request

Our Products & Services

Complete gas solutions, supplied & installed by our engineers

First Stage Regulator

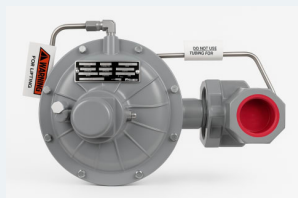

Tank-side pressure reduction, the first step in every reticulation system.

Price on request

Second Stage Regulator 1

Delivers stable appliance-level outlet pressure for domestic reticulation.

Price on request

Second Stage Regulator 2

Alternate second-stage body with higher throughput for larger buildings.

Price on request

Our Products & Services

Complete gas solutions, supplied & installed by our engineers

Gas Detection Unit

Continuous leak monitoring with audible alarm for plant and kitchen safety.

Price on request

Our Projects

A selection of installations we have delivered

LPG Gas Reticulation System for Industry

Industries

Full reticulation design, load calculation and safety-compliant installation.

LPG Gas Project for Industry

Industries

Tank and vaporizer selection with complete AutoCAD piping layout.

Our Projects

A selection of installations we have delivered

Gas Industry Factory

Industries

Turnkey industrial LPG system, commissioning and handover.

Reticulation System of LPG for Domestic Use

Domestic

Apartment reticulation meeting national and international safety standards.

Our Projects

A selection of installations we have delivered

Garments Fuel Energy for Industrial Use

Industries

High-capacity fuel energy system for a garments manufacturing plant.

Auto GAS Station Project

Auto GAS Station

Dispenser, storage and safety systems for a vehicle refuelling station.
